
Qualified OUT

Hello Serch. One more doubt !!! :)

Check my stats:

Raw clicks: 87440

Qualified clicks: 80685

Filtered Clicks: 3005

No cookie CLicks: 3018 (3.45%)

Trade click: 28403 (32.5%)

Content click: 56032 (64.1%)

All right until there the only problem is the stats for my trades i sent 28788 clicks and only 23031 qualified.

Almost 20% of no qualified clicks isnt this too high ??? Example i have sent to a trader 1877 hits and only 1431 qualified.

This sux my stats...

Any solution ? Thanks.

Yes, looks like too much. Try to increase value of "Maximum qualified outs from one ip to trader" in main settings.
